

A MESSAGE TO OUR COMMUNITY PARTNERS

COVID-19 donation guidelines

Novant Health UVA Health System is grateful for the outpouring of support that our organization continues to receive from our communities. Your continued encouragement and numerous offers of goods and services have been very appreciated during our response to COVID-19.

Going forward, we are asking that anyone interested in donating goods and services, contact NHUYA.SR@novanthealth.org prior to making any donation. Please include detailed information about goods or services that are available for donation and a contact phone number.

Currently, we are **only** accepting the following donations:

- Masks (unused), including homemade masks of any kind

- Protective eye wear
- Hand sanitizer
- Face shields
- Gowns
- Gloves
- Bleach wipes
- (Non-refrigerated) individually wrapped commercially made food and snack items

Once donation information is received, a community liaison officer will respond with instructions on when and how to complete the donation. Out of safety for our community and team members we are asking that **no donations be brought to the hospital without prior approval and receipt of delivery instructions.**

We're in this together, and together, we will better serve our community. Thank you for your partnership!
